POTATO GROWERS OF ALBERTA

Long summer days, cool nights and a large available land base in isolated geographic areas have resulted in Alberta seed that is characterized by increased vigor, high quality, high yields, lower disease and pest problems.

To maintain low disease levels in seed for export customers and Alberta farmers, seed potatoes are grown under a limited generation system, whereby seed potatoes remain in a certification system for a maximum of 7 consecutive field-grown generations. Alberta growers are not in practice limited by this system, as they exclusively sell seed that is, at most, the 4th field-grown generation.

Alberta seed producers are regulated under the Canadian Seeds Act and are inspected and certified by the Canadian Food Inspection Agency. Canada's strict national program ensures only seed potatoes meeting the requirements receive certification and are marketed domestically and internationally. Each growing season includes two field inspections, as well as shipping inspections on each seed lot. Seed growers submit samples for post harvest testing to ensure they meet the specific standards set by their customers and various trading jurisdictions.

Between the PGA, government and industry, there is a demonstrated commitment to improving the genetics of potato varieties grown in Alberta. Our province is one of the few in Canada with privatized high generation lab and greenhouse production. They operate under the guidelines of the Canadian Seed Act and are CFIA approved and inspected. Potato plantlets originate from tissue culture banks, including the Alberta Potato Repository operated by the provincial government.

This Seed Potato Directory is published by the Potato Growers of Alberta (PGA) using certification data provided by the Canadian Food Inspection Agency. Growers are able to request their information be omitted from this directory.

This Directory is an informal guide to seed potato production in Alberta and as such, the PGA is not responsible, in part or in whole, for any errors or omissions that may occur. All information is believed to be correct at time of publication.

Notice to Buyer

Disclaimer of Warranty

Limitation of Remedy and Damages

Neither the producer, seller, or Potato Growers of Alberta make any warranty of any kind, expressed or implied, as to the quantity or quality of the crop produced from seed potatoes certified by the Canadian Food Inspection Agency, including merchantability, fitness for a particular purpose, productiveness, absence of disease or otherwise. The only representation is the seed potatoes were produced, graded, packed, and inspected under the Rules and Regulations of the Canadian Food Inspection Agency and the Canada Seeds Act.

ALBERTA SEED POTATO PROGRAM

The Canadian Food Inspection Agency (CFIA) provides certification of seed potatoes under the authority of Part II of the Regulations to the Seeds Act.

At present, Alberta Agriculture & Irrigation serves as a source of disease-free stock plants for the private tissue culture labs located throughout the province. The Repository is home to over 300 public and private varieties.

Aphid populations tend to be low in comparison with other areas in North America hence virus levels in Alberta seed are normally low. To further ensure high quality seed potatoes are produced, growers have agreed to voluntary post-harvest by visual inspection and/or lab testing.

STANDARDS AND REQUIREMENTS FOR THE GROWING CROP

Canada operates under a single federally run seed certification agency applicable to all provinces. Seed classes within the classification system are based on both generation and disease level and the generation depends entirely on the number of years planted in the field. There is zero tolerance for *Clavibacter michiganensis* subsp. *sepedonicus*, Potato Spindle Tuber Virus and the tobacco vein necrosis strain of Potato Virus Y (PVY^N), as shown in Table 1. Testing for viral and bacterial disease is done by CFIA accredited laboratories. All seed lots designated for export have been PCN tested.

Table 1
Canadian Seed Potato Field Certification Program

Seed Class	Inspections	Maximum Tolerance on Final Inspection		
		Total Virus (%)	Total Blackleg & Wilts (%)	Total Varietal Mix (%)
Pre-Elite (PE)	2	0	0	0
Elite I (EI)	2	0	0.1	0
Elite II (E2)	2	0.1	0.2	0
Elite III (E3)	2	0.2	0.3	0.05
Elite IV (E4)	2	0.3	0.5	0.1
Foundation (F)	2	0.5	1.0	0.2
Certified (C)	2	2.0	2.0	0.5
FAILURE TO MEET THE TOLERANCE AT ANY LEVEL OF INSPECTION RESULTS IN THE DEMOTION OR REJECTION OF THE CLASS PLANTED.				

¹ PE seed must be grown on land in a three-year crop rotation.

² All seed classes must have zero tolerance for Potato Spindle Tuber Virus and Bacterial Ring Rot.

Abbreviations Used: G = Generation E = Elite FY = Field Year
N = Nuclear PE = Pre-Elite
F = Foundation C = Certified

The purpose of this table is to express equivalency of terms used by various certifications agencies in the United States for seed potatoes harvested from a series of successive field plantings. For specific criteria relating to disease tolerances and other requirements, the reader is referred to the certification regulations of the agency in question.

The first field planting utilizes laboratory-tested stocks which may be tissue-cultured plantlets, greenhouse-produced minitubers, stem cuttings, or line selections. Contact agencies for details as to types of stocks planted in their programs.

¹If lots originate at Cornell-Uihlein Farm, the first three generations (G1-G3) are also designated by a (U) to denote source.

²FY = Foundation Year (Wisconsin), FY = Field Year (Idaho, Maine, Michigan)

* Includes only the top 30 varieties based on information provided by the Canadian Food Inspection Agency and the Potato Growers of Alberta as of October, 2025. Only production information authorized by growers is published.

** Includes all Certified Alberta Varieties as per information provided by the Canadian Food Inspection Agency

^R Identifies a registered potato variety under the Seeds Act as of October, 2025. Non-registered varieties can only be multiplied further for experimental, variety registration or export purposes. In addition, it can only be moved as certified seed potatoes between farm units in Canada if accompanied by a Certificate of Authorization.

^P Identifies a variety that has received Plant Breeders' Rights in Canada as of October, 2025 and may be subject to royalties.

^G Identifies varieties listed under Garden Varieties. Under Section 65 of Part III of the *Seeds Regulations* unregistered potato varieties not for commercial production are exempted from the prohibition of sale contained in the *Seeds Act*. In order to distinguish between what is considered to be commercial and non-commercial production, this directive prescribes production limits within which garden variety seed potatoes remain eligible for certification.

^P Identifies a variety that has received Plant Breeders' Rights in Canada as of October, 2025 and may be subject to royalties.

^R Identifies a registered potato variety under the Seeds Act as of October, 2025. Non-registered varieties can only be multiplied further for experimental, variety registration or export purposes. In addition, it can only be moved as certified seed potatoes between farm units in Canada if accompanied by a Certificate of Authorization.

^G Identifies varieties listed under Garden Varieties. Under Section 65 of Part III of the *Seeds Regulations* unregistered potato varieties not for commercial production are exempted from the prohibition of sale contained in the *Seeds Act*. In order to distinguish between what is considered to be commercial and non-commercial production, this directive prescribes production limits within which garden variety seed potatoes remain eligible for certification.

^o Identifies as certified organic.

Cool weather. Cooler potatoes.

Alberta's cold climate, long summer days and cool evenings create seed potatoes that have that extra edge you're looking for. High-yielding, healthy and vigorous – just what you want.
